試題分析

針對上面的照片及問題，您可以這樣回答：

"The woman is throwing a **plastic bottle** into a public **trashcan**. In her right hand, she is holding a **cola can**. She might throw it into the trashcan as well. She is doing this because when trash is recycled, the materials taken out during **recycling** can be used to make other useful products. Recycling can also reduce the amount of **garbage** we throw out and at the same time keep the environment from being overloaded with trash.

I also recycle garbage because I want a clean and safe environment too.

Behind the woman there is a **bike**. Maybe it belongs to the woman. There are more bikes in the background, and it is very likely that the picture was taken on a **campus** or in a **park**...."
