- 文章離題

文章離題：這種文章不符合題目的要求，作者大部份在談論**什麼場合不該使用手機**，並未依照提示討論行動電話在台灣的使用情形，及說明行動電話受歡迎的原因。

例文：

A cell phone is a very good product. It helps people call their friends easily. It causes many problems **when people use it at the wrong time**. For example, if we use a cell phone when we drive, it could cause a car accident. Therefore, the cell phone also is not good for our health.

When we travel, a cell phone is a very good tool. Our friends can easily find us because they can call us. If there is something important, they can call us on their cell phone.

What is the wrong time to use cell phone? When I watch TV or go to a movie, I don't like to hear cell phones ring. It make me very angry. So I hope everyone will use cell phones at the right time, not at the wrong time.

- 文章離題 

- 文章不完整

文章不完整：文章長度太短，未能達到題目的要求，是篇未完成的作文。

例文：

People who use cell phones in Taiwan are increasing. Now, I also use a cell phone. Why does nearly half the population use cell phones? Several points are very important. First, it's very convenient, because it is small enough to take with you. Second, it's important for businessmen. Using it, they can get many good opportunities. Third, it's cheaper now than before. So nearly half the population use cell phones. Last, a cell phone is very cute, so it is popular.

上面這篇文章的長度僅達題目要求（150~180字）的一半，作者雖解釋了手機普遍的原因。但在文章開端討論手機使用的篇幅太短了，此外亦未下結論。

- 組織不良

組織不良：雖然文章內容大半合乎主題，但由於**少了主題句、理由或結論**，**組織不良**，讀者很難了解作者要表達的意思。

例文：

Cell phones have been used by Taiwanese people because they are very convenient everywhere. The people using cell phones exceeds 10 million, nearly half the population. You see every ten persons, you will find five persons use a cell phone at least because it is cheap and useful. People in Asia, Hong Kong, Singapore, and Japan also use cell phones. Therefore when we go aboard to an Asian country, you also can use your cell phone because they are the same. You can connect it to a computer to touch other people. When you want a cell phone, you must go to a cell phone shop, and there is some information about models. When you buy a cell phone, you also have to buy the other equipment that fits your cell phone. Then you will use it smoothly and quickly. As the cell phone shops increase, cell phone popularity increases in Taiwan. When you touch a cell phone the first time, you have to read the guide to find out how to use it, or you can receive cell phone training in some school. Now you will be the best man using a cell phone.

要注意的是這篇文章中雖探討了手機使用主題並陳述手機普遍的原因，但**句子間的邏輯混淆散亂**；另外，作者也**沒有將文章合理的分段**。
